Project Summary and Significance

Cipher link ICT solution feels it is very important to listen carefully to organisations, schools and clients wishes. We decided to take it as our own responsibility in rendering a service that will benefit both the school management and parents by providing an online portal solution where all parties can easily communicate, reduce the working force of the school and exposing the students to online educational activities from various quality source and at the same time improving the standard at which every school operates.

We therefore decided to create a platform where:

- ✓ Every academic activities and records can be managed in a single database anytime anywhere.
- ✓ School portal (CSMS) solution can assist students, staffs and parents in making registration, payment and check results (online).
- ✓ Staffs and students can have a platform to interact online
- ✓ Parents can view academic history and performance of their child at any point in time, make payment at their own ease right from the portal.
- ✓ Academic calendar and syllabus can be viewed easily from the portal
- ✓ School database can be held for a longer period of time and easily be accessible to the management.
- ✓ Working force of the management can be reduced and focus on what matters most.

All these are part of what we plan in implementing a unified school management system, when you adopt this system you will have freedom to focus on what matters most; delivering high-quality education, establishing outstanding business values and achieving greater efficiency. Cipher Link ICT Solution is dedicated in rendering a solution where client satisfaction remains our core priority.

Major Reasons why all schools must go digital

- It assist parents in paying fees online removing the stress of coming down to school or bank to make payment
- It helps students, staffs and parents in making registration and checking result online
- Parents can view academic history and performance of their child at any point in time, make payment at their own convenience right from the portal.
- Academic calendar and syllabus can be viewed easily from the portal
- School database or record can be held for a longer period of time as long as it is digital (no data can be lost) and can easily be accessible to the management anytime.
- Working force of the management can be reduced and focus on what matters most (Removing all stress completely).
- Day to day transaction, payment summary, attendance etc. can be viewed easily from the portal.
- The total number of students, the total number of staffs should be viewed easily without stress.
